SKILLS

Javascript, Python, React, Redux, Flask, Express, Node, HTML, CSS, SQL, PostgreSQL

PROJECTS

DIYDinners (Python, Flask, SQLAlchemy, ReactJS, Redux, JavaScript, PostgreSQL)

[live](#) | [github](#)

A Clone of New York Times Cooking that provides users with an intuitive platform to share and critique simple dinner recipes.

- Implemented user authentication and authorization features with passport.js for secure access to recipe creation, editing, and reviewing functionalities.
- Leveraged Redux store and React Router to ensure seamless data flow and efficient page rendering for optimal user experience.
- Utilized SQLAlchemy ORM to interface with the database and ensure scalability and maintainability of the application.

Gulp (Python, Flask, SQLAlchemy, ReactJS, Redux, JavaScript, PostgreSQL)

[live](#) | [github](#)

A Yelp clone that uses React, Flask/Python, and SQLAlchemy for database management, to advertise businesses and accommodate reviews.

- Designed and integrated interactive features such as a search bar and filters to enhance user navigation and discovery of relevant business listings.
- Applied Flask to implement server-side routing, middleware, and templates, resulting in a responsive user interface.
- Integrated Google Maps API and geolocation services to allow users to quickly locate the business and leave reviews, the utilization of this API ensures that the feature is reliable and up to date, with real-time information about location and distance.

BreezeBnB (JavaScript, Node.js, Sequelize, Express, ReactJS, Redux, PostgreSQL)

[live](#) | [github](#)

Feature-rich Airbnb clone using React and Express that provides a tidy space for home rental advertisement and reviews.

- Used React to create a user-friendly interface for booking and managing reservations, enhancing the user experience.
- Optimized the performance of the application by implementing caching mechanisms and using asynchronous programming techniques in Express.
- Developed and maintained the back-end server using Node.js and Express, ensuring efficient and scalable site performance.

EXPERIENCE

Merchandise Attendant

Target

June 2019 - Oct 2019

- Developed strong communication and interpersonal skills by interacting with customers and colleagues on a daily basis.
- Gained experience in managing inventory, analyzing sales trends, and making data-driven decisions.
- Developed a strong work ethic and attention to detail in ensuring the accurate and timely recording of transactions and inventory.

Delivery Driver

Abo's Pizza

June 2018 - Dec 2018

- Established strong time-management and organizational skills by efficiently delivering pizzas to multiple customers within tight deadlines.
- Developed communication and problem-solving skills by interacting with customers, addressing their concerns, and resolving conflicts.
- Demonstrated responsibility and reliability by managing cash and keeping track of orders.

EDUCATION

Web Development - App Academy | Summer 2022

BA Integrative Physiology - University of Colorado, Boulder | 2018 - 2022
